- Lead-free Technology**
With the world's advanced lead-free technology, the risk of lead pollution in water can be effectively minimized. This ensures our products to meet the NSF standard and AB1953 requirements.
- 1250°C High Temperature Firing**
Verified by 22 hours 1250°C high temperature firing, the ceramic body has high density and good load-bearing performance. Glaze thickness is up to 1mm and the water absorption is less than 0.3%. With strong dirt resistance, our products remain lustrous over time.
- Water-saving technology -30%**
Adopts the quality water-saving aerator of Swiss Neoperl, which realizes a rich but gentle waterflow, and an above 30% water saving.
- Urea Formaldehyde (UF) Seat-Cover**
The technology of UF seat-cover has a high degree of hardness and good yellowing resistance. In addition, it uses stainless steel 304 hinge and the part can be easily disassembled.
- Concealed Coin Aerator**
It only takes a single coin to open the aerator making it easier to install and maintain.
- Damping Structure Technology**
The damping structure makes the drawer close slowly, which is effective for noise reduction and collision avoidance.
- Neoperl easy cleaning and adjustable aerator**
With adjustable angles, this aerator is easy to clean and maintain. Limescale can be easily removed with your fingers.
- Eco-friendly Paint**
To protect the health of you and your family, Bravat has applied the eco-friendly paint on our furniture. This exquisite treatment also effectively prevents general water leaking.
- NSS PASS 200H**
Passed the 200-hour salt spray test at 10th level with no scuffs.
- Seamless Joint Technology**
The use of seamless joint technology mates the bathtub body and panel, endowing the bathtub with a simple but fashionable appearance.
- Mirror-sided plating technology**
Meets the EN248 standard, guarantees that this product would stay in excellent condition even after years of daily use.
- Hydro Massage System**
The powerful hydro-massage system allows you to experience the unprecedented pleasure—Bravat's "water care".
- PVD Color Focus Technology**
The application of international advanced PVD vacuum coating equipment and spraying line endow our products with beautiful colors, abrasion resistance, anti-corrosion and anti-oxidative.
- Bubble Massage System**
Being surrounded in an intensive surge of bubbles, Bravat's bubble massage system provides you an extraordinary water spa experience.
- Air Mix Technology**
Over 2L worth of air is absorbed every minute to fully mix with water so as to offer the softest and most rhythmic bathing experience.
- Thermostatic Technology**
Outstanding thermostatic technology solves the problem of water temperature instability.
- Siphonic Flushing Technology**
The enlarged flushing valve ensures a powerful water pressure, maximum siphon functions, and a strong sewage disposal.
- LED Technology**
The colorful LED light adds sentiment spice to your SPA.
- Wash-down Flushing Technology**
The innovative extra-large flushing surface enables powerful water-flow and sewage disposal.
- O₃ Ozone Disinfection Technology**
By quickly eliminating the bad smell and its living environment, Bravat's ozone disinfection technology could reduce bacteria significantly.
- Soft-closing Technology**
Soft-closing Technology realizes low noise and smooth process when closing toilet seats and covers.
- Ergonomic Considerations**
Human body ergonomics is considered in the product design to give the best leisurely and elegant experience.
- Dual Flushing Technology (3.5L/5L)**
This eco-friendly dual flushing system (3.5L/5L) enables you to use water on demand and prevent unnecessary waste.
- WaterMark Certification**
A confirmation of the product meets Australian Standards relating to product quality, including health and safety.

The Charm of Bravat

271 BRAVAT' S ROAD TO ACHIEVEMENTS
273 MANUFACTURING BASE
274 PRODUCTION • STRIVE FOR PERFECTION

ICONIC PROJECTS AROUND THE WORLD

Bravat, a favorite of international designers, five-star hotels and giant property groups.

- The Interlace / Singapore
- The Yas Hotel / Abu Dubai , UAE
- Emirates Park Tower Hotel / Dubai , UAE
- TIBA DOCK / Hamburg, Germany
- Hotels & Preference Hualing Tbilisi / Tbilisi, Georgia
- Fuchun Mountains Museums / Zhejiang, China
- Wyndham Grand Foshan Gaoming / Guangdong, China
- Palazzo Versace Hotel / Dubai , UAE
- Dhigufaru Island Resort / Baa Atoll, Maldives

Many prestigious and iconic buildings around the world have one thing in common:
They equipped with BRAVAT.

The reason is obvious: many international designers, five-star hotels and giant property groups regarded BRAVAT as a brand that features well-designed & high-quality products, professional service and trustworthy brand commitment.

The Interlace

Singapore 

The Interlace is one of the largest and most ambitious residential development projects in Singapore, representing a radical approach to housing and social living through the unveiling of a new urban typology within a lush, tropical environment.

- World Building of the Year 2015
- 2014 Urban Habitat Award Winner

Yas Viceroy Hotel

Abu Dhabi , UAE 

Inspired by the ergonomics and speed lines of high-performance cars and yachts, the Yas Viceroy Hotel in Abu Dhabi is the very first hotel to be ever built across an F1 track, where every detail reflects the character and passion of a spectacular race to the checkered flag.

- The first hotel built across F1 track in the world

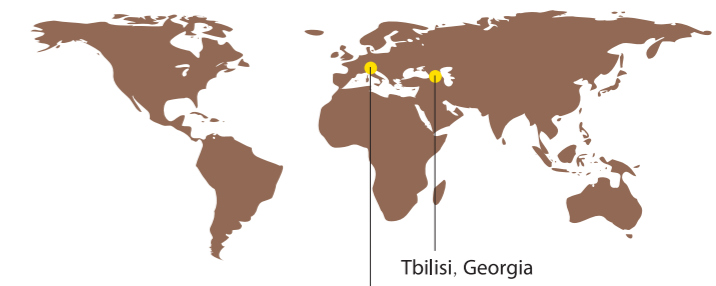

Dubai, UAE

Emirates Park Tower Hotel

Dubai, UAE 

Located in the top-class Dubai' s Business Bay, Emirates Park Tower Hotel is a 70-storied twin-tower skyscraper with a height of 376.6 meters. It is used as the hotel and office building by Emirates Airlines. With 2 floors basement, 6 floors podium and twin towers, it is the tallest independent hotel across the world.

- The tallest independent hotel across the world

Tbilisi, Georgia
Hamburg, Germany

Hotels & Preference Hualing Tbilisi

Tbilisi, Georgia 

Hotels & Preference Hualing Tbilisi is a five star hotel located alongside the shoreline of the famous Tbilisi Sea, in the Athletes' Village of Tbilisi 2015 EYOF whose layout is designed as a butterfly. It is not only a major part of Athletes' Village but also new landmark of Tbilisi. As an exclusive supplier of this five-star hotel, Bravat provides full sets of high-quality and well-designed sanitary products.

- The major part of Athletes' Village of Tbilisi 2015 EYOF
- The new landmark of Tbilisi

Dhigufaru Island Resort

Baa Atoll, Maldives 

Nestled on the protected Biosphere reserve of Baa Atoll, Dhigufaru Island meaning "a long reef", is the epitome of what you would imagine as an exotic getaway. The rooms are located along the perimeter of the island, enabling you to experience the distinctive natural features which makes the island so special.

- Located in UNESCO World Biosphere Reserve

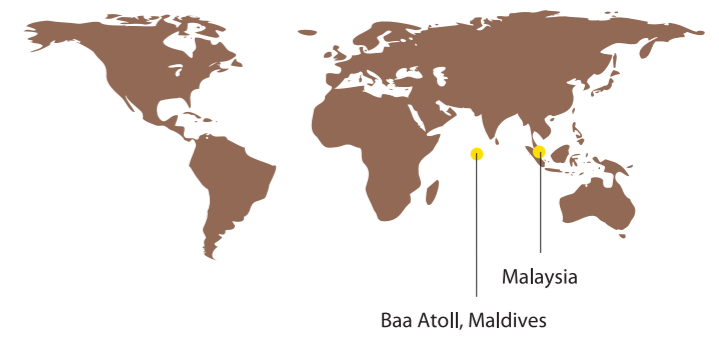

Forest City

Malaysia 

FOREST CITY consists of four man-made islands, total land area of 1,386ha. Forest City will offer wealthy international buyers luxury homes, the most advanced 3D multi-layered urban planning concept flush green surroundings with no vehicles travelling.

- The Role Model of A Sustainable Smart City

Wyndham Grand Foshan Gaoming

Guangdong, China 

Wyndham Grand Foshan Gaoming is positioned as an ultra five-star environmentally friendly luxury hotel. It is designed by the worldwide distinguished architecture company Atkins and managed by Wyndham Hotel Group. It boasts beautiful and unique facade design, 500 tastefully designed riverview rooms and elegant decoration in the public space.

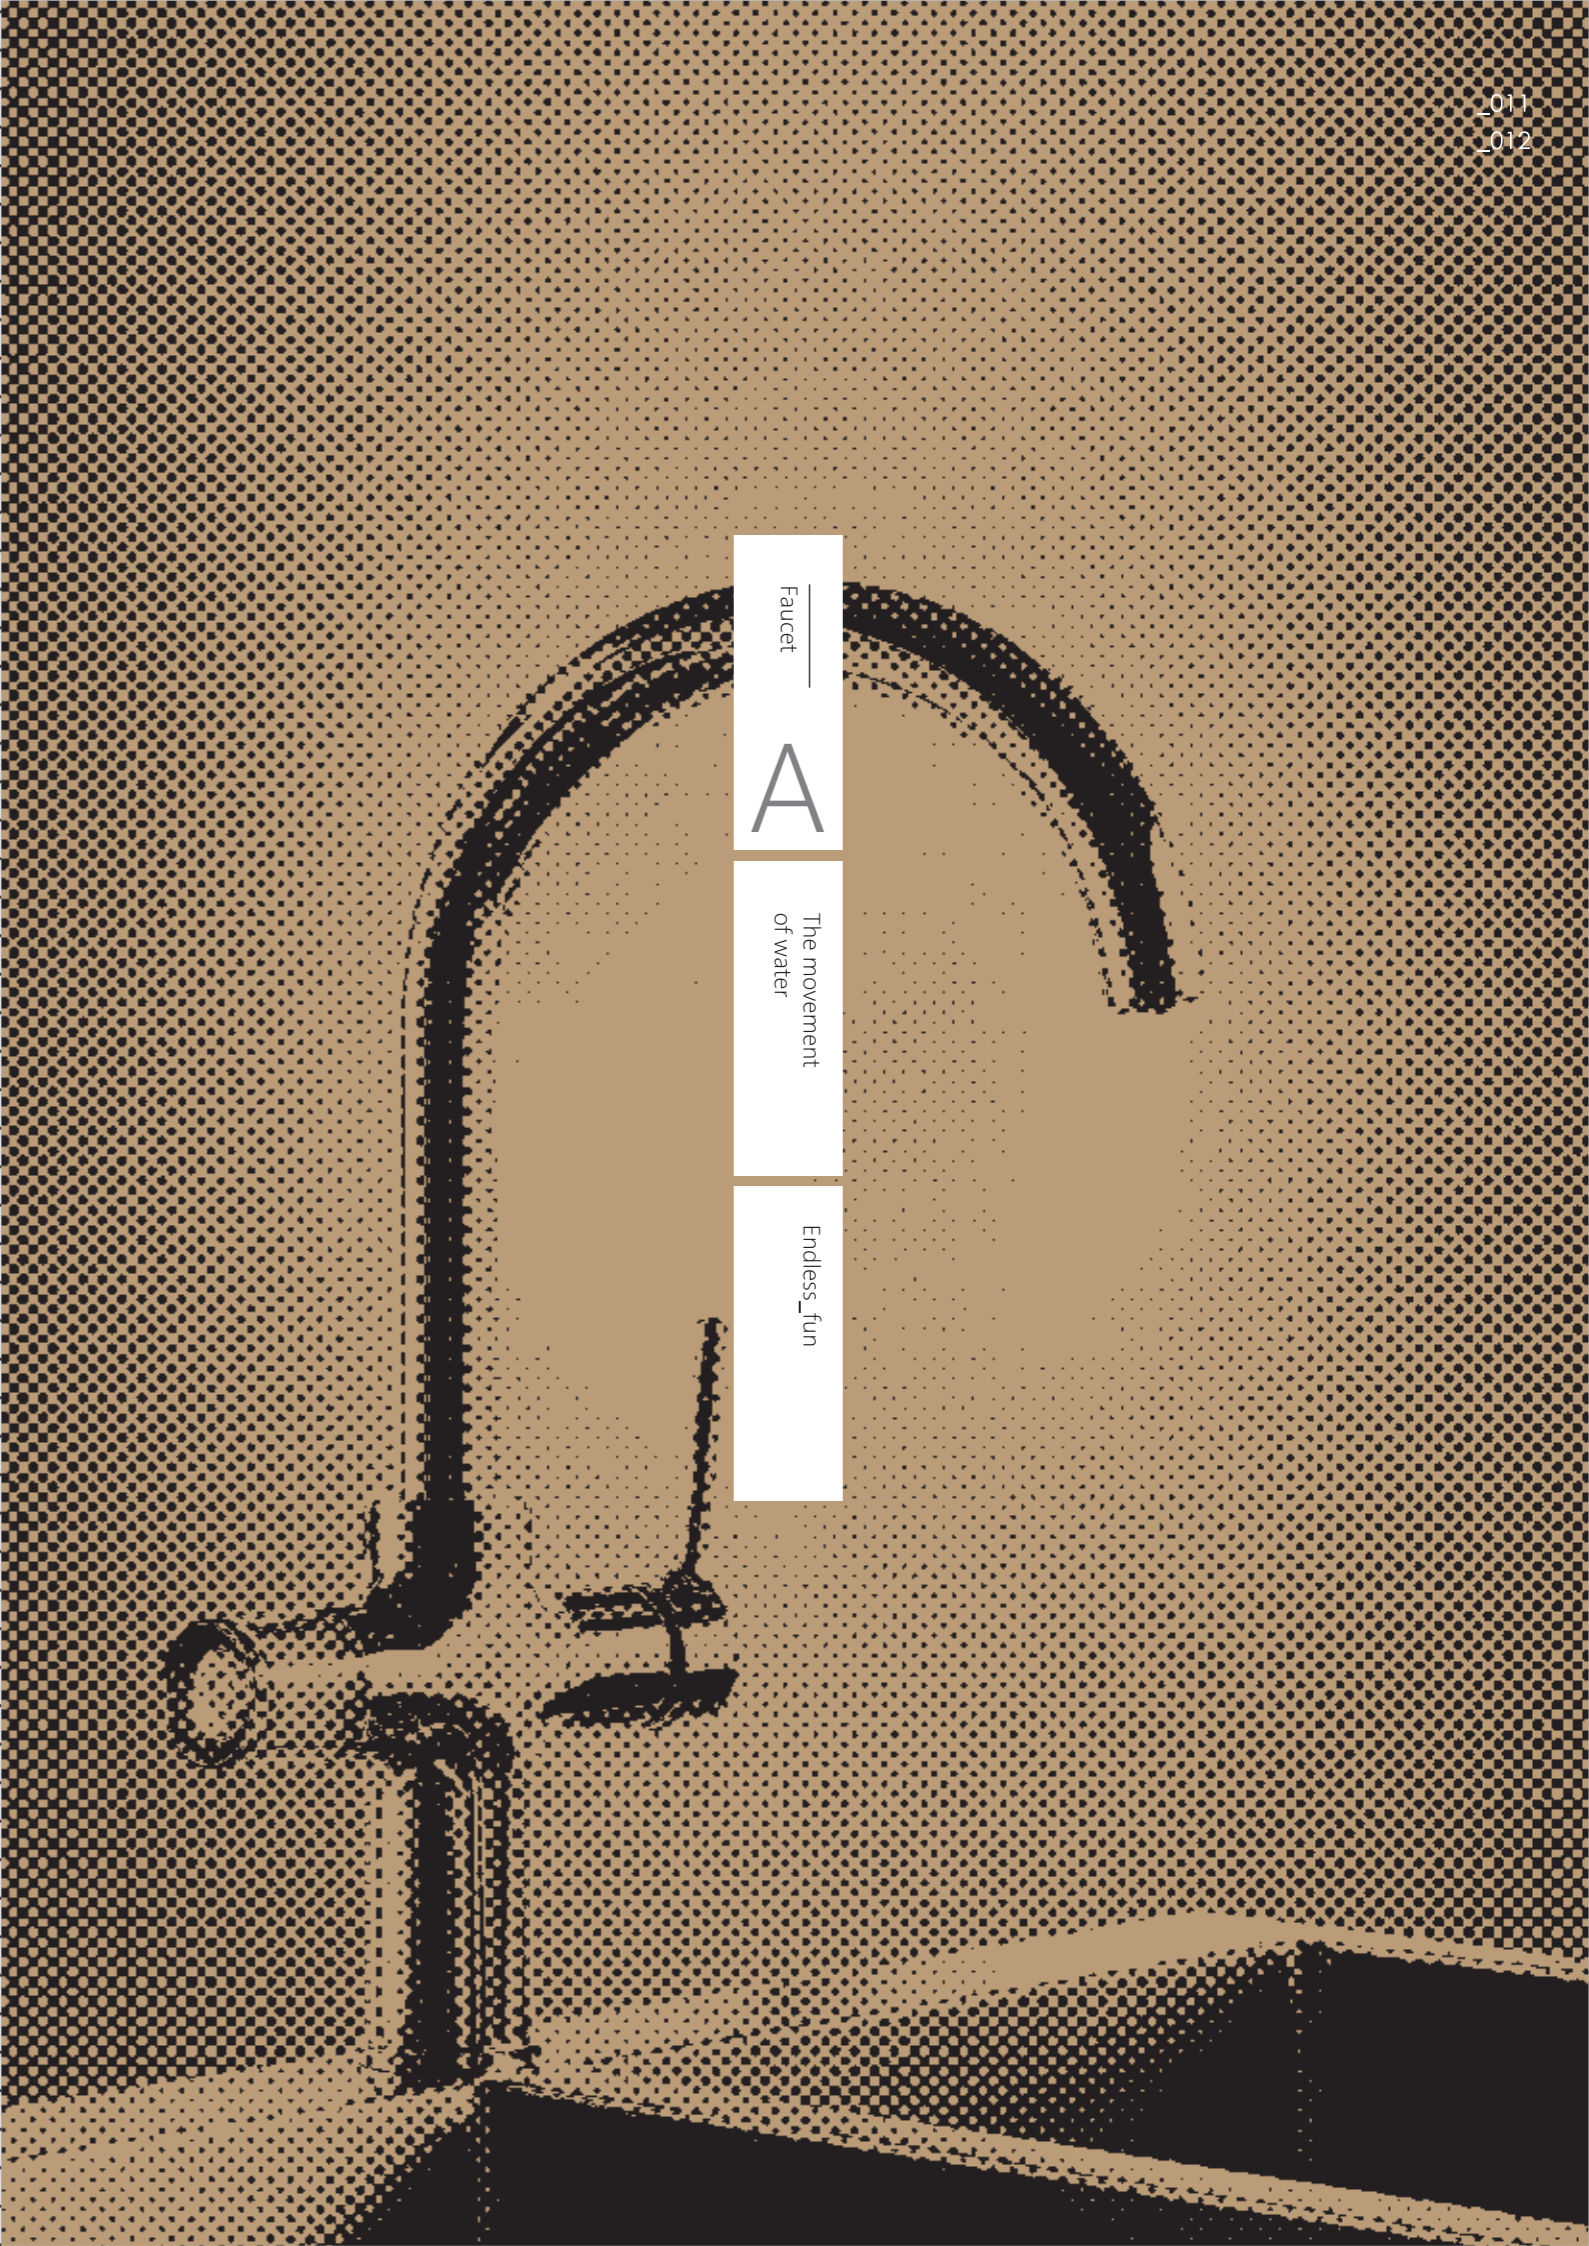

- Designed by the worldwide distinguished architecture company Atkins
- Ultra five-star environmentally friendly luxury hotel

PHILLIS

FAUCET 021

Industrial Design · Faucet

F 156101C
Single Handle Basin Mixer

Phillis perfectly displays masculinity. Its decisive outline implies typical men's resolution and perseverance, while the smooth corners are specially designed for comforts. Just like fashionable men who care about both the environment and self-fulfillment, in the meantime, striving to balance sensibility with sensitivity.

AFFABILITY

FAUCET 024

Industrial Design · Faucet

F 1172217CP
Single Handle Basin Mixer

F 1172217CP-1
Single Handle Basin Mixer (Pull-out)

"Affability" Faucet Series demonstrates the intimate relationship between man and water. It adopts geometry columns as a fundamental design philosophy, whilst its ratio fits the golden cut accurately and beautifully. Meanwhile, the joints between every functional area connect seamlessly, creating a smooth and natural flow.

D 649C

Touch Control Electronic Faucet
(Temperature Adjustable)

Combining electronic technologies and delicate craftsmanship, this product is a real trendsetter, achieving breakthroughs beyond the concepts of bathroom technologies. Without any physical contact, whenever it is approached or left behind, the water streaming from the faucet begins or stops on its own. Its accurate sensor is really easy to use.

BRAVAT'S Advanced Technology

ADVANCED
TECHNOLOGY

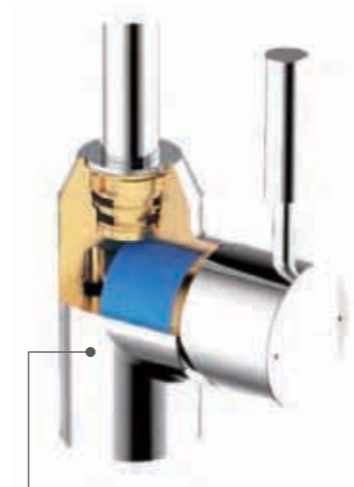

HARDWARE

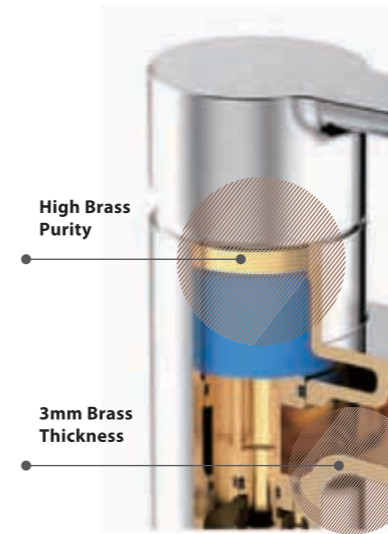

ADVANCED TECHNOLOGY

Featured with creative shapes full of inspiration and the comfortable water flow, Bravat faucets and shower products ensure a refreshing and relaxing experience for both your body and mind throughout the day.

With the advanced technologies introduced below, Bravat products guarantee you a high-quality bathing experience.

Ⓐ -a
Past the salt spray test for 200 hours (of the European standard)

Zinc Ion **Cupric Ion**

With nearly no impurities, the metal atoms are able to form a tight and solid structure.

Impurities

Cupric Ion **Zinc Ion**

With large amounts of impurities, the metal atoms structure is irregular and loose.

Ⓒ
Constant-current limiter Water-saving

Ⓑ
European High-quality Past the endurance test for 800,000 times

Ⓐ -c
Multi-color Surface

High-performance Plating/ Multi-color Surface Treatment Technology Ⓐ

-  **a.** With high performance plating, 200-hour salt spray test just leaves our products unscathed.
-  **b.** The exclusive PVD plating technology endows our products with different metallic colors, high abrasion resistance and great corrosion resistance.
- c.** The automatic powder spraying technology is able to meet the demands of abundant colors.

Lead-free Technology

-  With the world's advanced lead-free technologies, the amount of lead precipitation of our faucets is less than 0.005mg/L, which is certified by NSF of the USA and the Chinese national standards (GB/T 18145-2014). Guarantee household water safety for you and your family is one of Bravat's missions.

Air Mix Technology

-  With the Air Mix Technology, around 30% air is absorbed to mix with the water in the showerhead, turning the water flows into countless soft water drops, and making your showering more comfortable, allowing you to fully enjoy the fun of rain-like shower.

Imported Cartridges with Original Packaging Ⓑ

-  Bravat faucets are equipped with imported cartridges with original packaging, such as Kerox from Hungary, Flush from Germany, and Vernet from France. It feels smooth and precise for positioning during the usage. All the brand cartridges provide a ten-year warranty.

Original Imported Swiss NEOPERL Aerator Ⓒ

- a.** Softer water flow, effectively saving more than 30% of water. It is certified by NF, as well as compliance with French, European, and international quality performance standards.
- b.** Concealed coin-started aerator realizes the easy installation and maintenance, as well as the nice appearance.
- c.** Self-cleaning technology makes stain removing with ease. It is easy to use and clean just with a finger touch.
- d.** Adjustable aerator makes the flow angle wider and more flexible, thus meeting more demands.

Imported Equipment and Centennial Craftsmanship

With the full set of international top-notch IMR gravity casting equipment imported from Italy, automatic CNC from U.S. HANS or Japan Brother, combined with Bravat's centennial casting technologies, the products can be made into various shapes, and become more durable.

CERAMICS

ADVANCED TECHNOLOGY

Experiencing 1250°C high temperature firing, Bravat's ceramics present beautiful and creative appearance, improving the artistic characteristic of your home decoration.

With the following advanced technologies, Bravat products guarantee your high quality bathing experience.

High Quality Ceramic Body & Easy Clean Glaze

With professional coating technologies, a layer of exclusive transparent glaze is added on ceramic body. Through the firing process at the temperature of 1250°C, this extra coating closely attaches to the ground coat and enables the glaze to have fewer and thinner pinholes, which results in a particularly smooth surface coating. Laboratory inspection is taken regularly to ensure the production of Easy Clean Glaze consistently meets the highest possible standard of quality.

Compared to regular ceramic glaze, the Easy Clean Glaze has a higher surface smoothness. This allows the ceramics to remain clean easily, and gives the bacterial a lower chance to stay on. In addition, with fewer and thinner pinholes, the ground coat closely attaches to the ceramic glaze. This fined and close-grained texture ensures no chance of leaking.

Advanced Flushing System

Bravat has optimized the flushing pipe, jet pipe and flushing hole opening of the toilets, so that siphoning can take place within 3 seconds. The pipes are enlarged up to more than 45mm, which exceeds the national standard of 41mm, allowing smoother sewage flushing, making your bathroom cleaner and more refreshing.

Green Technology of Water Saving

The toilets presented by Bravat have met the Safe Water standards. 5L/3.5L for dual flush can ensure excellent flushing.

One-piece Casting Technology

Bravat presents the true one-piece toilets without after-adhesive. The tank and bowl achieve perfect bonding without traces, which displays the advanced craftsmanship and quality from the details.

Top Imported Valves

The products are supplied with flushing valves of the premium brands, Geberit from Swiss, providing you with more than 200 thousand times quiet but powerful water flushing.

UF Soft-close Seat & Cover with Quick Release Mechanism

a. The selection of UF soft-close seat & cover enables smooth and silent closing, a high degree of hardness and good resistance of yellowing.

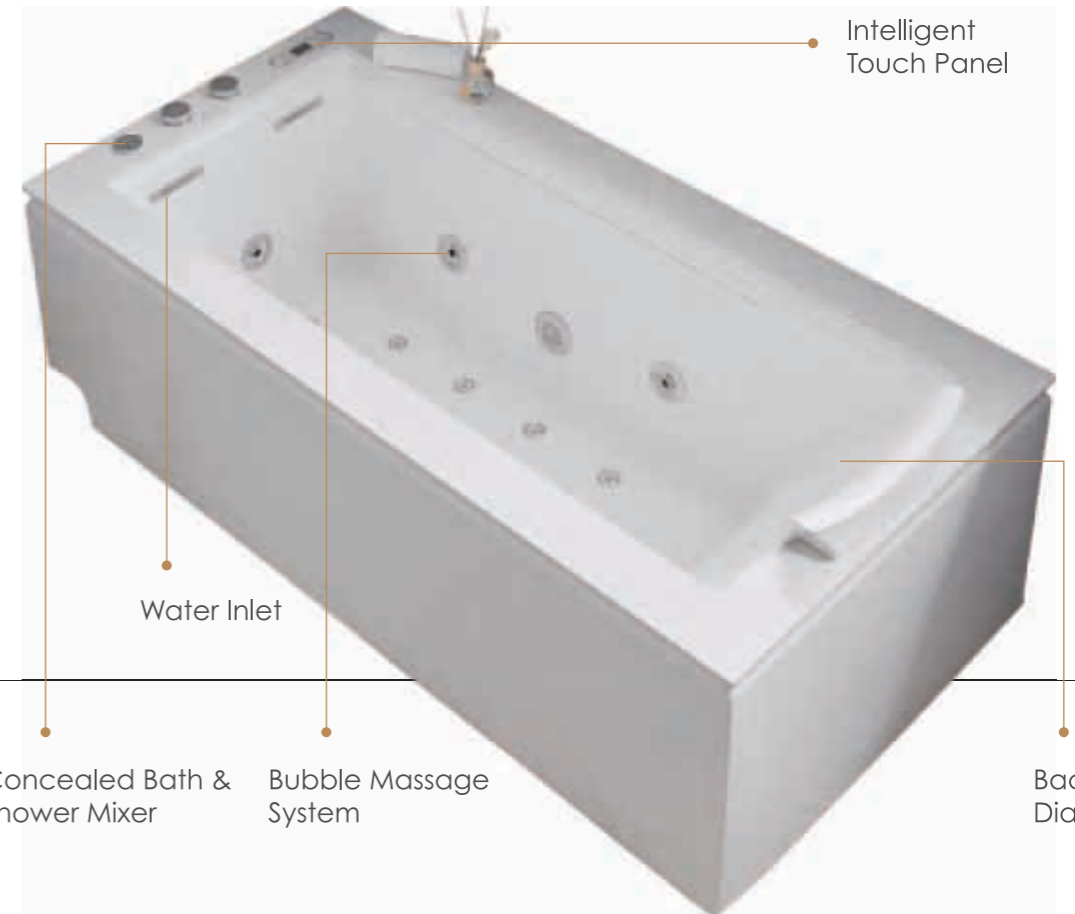

b. Metal hinge and easy (dis)assembled structure are supplied for easier and durable usage.

BATHTUB

ADVANCED TECHNOLOGY

Owning one Bravat bathtub, you are able to indulge yourself in great relaxation. An unprecedented pleasure in bathing, from Bravat's considerate "water care".

With the following advanced technologies, Bravat products guarantee your high quality bathing experience.

_267
_268

Bubble Massage System

With over 200 needle-typed bubble jet holes and vibrating massage function, you are allowed to thoroughly release the body and mind.

Back Diathermic Technology

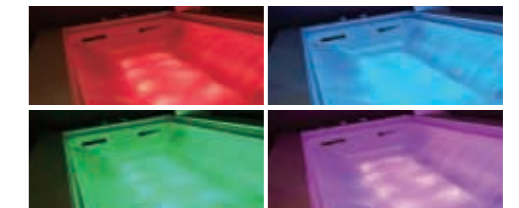

The built-in back diathermic system ensures a warm and comfortable touch when the back lying on the bathtub, allowing you a relaxing and pleasure bathing experience at utmost.

Automatic Waste Pipe Cleansing System

Automatic Waste Pipe Cleansing System is conducted regularly to avoid the germs.

Seamless Joint Technology

A perfect combination of bathtub body and panel, representing simplistic beauty and ensuring easy cleaning.

Concealed Colorful LED Light System

More than 12 colors of light, more romantic sentiment spice is added to your spa.

SHOWER ENCLOSURE

ADVANCED TECHNOLOGY

German Technologies Ensure Excellent Quality

- a. The adoption of 8mm/10mm automobile-class tempered glass ensures safety of the users.
- b. Refined brass hinge with reliable quality is selected, which has passed more than 50,000 times test.

Thoughtful Design & Easy Installation

- a. The use of adjustable connectors and stainless steel bar solves the problems from irregular wall shapes, meeting the demands of different architectural environments.
- b. Precisely made zinc alloy door handle offers comfortable hand feel.

Simplistic Design but Various Choices

The frameless glass door system provides diverse options for your bathroom space design.

BATHROOM CABINET

ADVANCED TECHNOLOGY

You will enjoy a clean, comfortable and stylish bathroom with Bravat bath furniture, which brings the artistry and practical function into full play. With the following advanced technologies, Bravat products guarantee your high quality bathing experience.

Bravat Hinge & Guide Rail

- a. Applying BRAVAT buffering hinge featured with 100,000 times continuous open-close without failure, providing you convenient use, long duration and flexible dismantlement.
- b. Adopting damping structure technique, BRAVAT guide rail enables slow closing of the drawer, excellent collision prevention and noise reduction.

Quality Material

The use of multi-layer solid wood board with superior quality remains Bravat's bathroom furniture to be with high hardness, bearing capability, nice and durable.

Eco-Friendly Paint

Eco-friendly paint is applied for protecting the health of you and your family. The exquisite treatment also ensures great tightness and waterproof performance.
